# THIRI MYAT THWE

**COMPUTING SCIENCE STUDENT • ASPIRING DATA ANALYST**

+65 8192 6219 | thirimyatthwe40@gmail.com | LinkedIn: thiri-myat-thwe-n1k1 | Portfolio: niki-ashlynn.github.io/Portfolio/

*Singapore*

## SUMMARY

Computing Science student with a strong interest in data analytics, data science and technology, with hands-on experience in Python, SQL, Power BI, databases, cloud technologies and software development. Developed projects including a Smart Skincare Inventory IoT System using Python, Azure IoT Hub and Azure Cosmos DB, alongside database-driven and software development projects. Strong at analysing data, designing databases, building practical solutions and presenting insights through clear tables, dashboards and visualisations. Able to turn data and technical requirements into structured solutions that support decision-making and improve processes.

## EXPERIENCE

**IT Leader** | Youth Empowerment Pathway – Yangon, Myanmar • *Dec 2024 – Jul 2025*

- Coordinated technical requirements and event support across multiple youth programmes, helping ensure smooth delivery of activities and initiatives.
- Contributed to 2+ major events, supporting programme proposals, technical planning and coordination with fellow youth leaders.
- **Achievement**: Received a Certificate of Recognition for supporting the 2025 Malaysia-Myanmar Trade Fair.
- **Achievement**: Received a Certificate of Appreciation for contributions to the 2025 Festival of Youth, Bangladesh Embassy, Yangon.

## PROJECTS

**Skincare Sales Analytics** | *Excel, Data Cleaning, PivotTables*

*Personal Project | 2026*

Cleaning messy retail data to explore sales trends, revenue and product performance.

**Smart Skincare Inventory System** | *Python, Azure IoT Hub, Azure Cosmos DB*

*Coventry University / PSB Academy | 2026*

IoT-based inventory system for tracking stock levels, expiry dates and product usage. Integrated cloud database and IoT connectivity to improve inventory visibility and identify products at risk of expiry or waste.

**CODEX Library Management System** | *PHP, MySQL, SQL*

*British University College, TMC Academy | 2026*

Web-based library system for managing books, members, borrowing, returns and fines. Implemented database-driven functionality to centralise library records and streamline borrowing and return management.

**Movie Recommendation System** | *Web Development*

*Personal Project | 2026*

Web-based system that recommends movies based on genre, rating and mood preferences. Created an interactive recommendation experience that helps users discover movies based on personalised preferences.

**Grade Calculator** | *HTML/CSS, JavaScript*

*Personal Project | 2026*

Web-based calculator that calculates overall grades from assessment marks and weightings. Automated grade calculations to provide users with faster and more accurate results.

**University Website** | *HTML, CSS, PHP, Hack*

*British University College, TMC Academy | 2025*

University website with login, clubs, events and registration features. Developed a functional platform that centralises student information, activities and event registration.

**Gym Management Website** | *C#, Object-Oriented Programming*

*British University College, TMC Academy | 2025*

C# application for managing gym members and memberships using object-oriented programming concepts. Applied OOP principles to organise member records and simplify membership management.

**To-Do List Mobile Application** | *Mobile Application Development*

*British University College, TMC Academy | 2025*

Mobile application for creating, updating and organising daily tasks. Developed a practical task-management tool allowing users to maintain and update their daily activities in one place.

## TECHNICAL SKILLS

**Data & Analytics:** Python, SQL, Power BI, Excel, Data Analysis, Data Visualization, Orange, Apache Spark, Hadoop, Apache Superset, Sqoop

**Programming:** C++, C#, Java, PHP, HTML/CSS, JavaScript, Object-Oriented Programming

**Databases & Design:** MySQL, SQLite, Azure Cosmos DB, ERD, Database Design

**Cloud & Development Tools:** Microsoft Azure, XAMPP, Visual Studio, Anaconda, GitHub

**Development:** Mobile Application Development, IoT, UI/UX, Technical Documentation, Algorithms

**Foundations:** Machine Learning & AI Fundamentals, Cybersecurity Fundamentals, Technical Troubleshooting

## SOFT SKILLS

Analytical and Critical Thinking, Problem Solving, Adaptability and Continuous Learning, Communication, Team Collaboration, Time Management, Attention to Detail, Research and Information Analysis

## EDUCATION

**Bachelor of Science with Honours in Computing Science** | Coventry University – Singapore

*Jan 2026 – Mar 2027 (Expected)*

**Diploma in Information Technology** | PSB Academy – Singapore

*Apr 2025 – Nov 2025*

- Achieved 4 A grades out of 8 subjects.

**Diploma in Infocomm Technology** | British University College – Yangon, Myanmar

*Sep 2024 – Jan 2026*

- GPA: 3.57 / 4.00
- Graduated with Distinction
- Awarded High Distinction for final project performance.

## CERTIFICATES

**Certificate in Basic Software Engineering** | KMD – Yangon, Myanmar | *Jun 2023 – Aug 2023*

**Power BI: Get started with Microsoft data analytics** | edX – Online | Verified Certificate | *Sep 2026*

**Power BI: Create analytics reports** | edX – Online | Verified Certificate | *Sep 2026*

## LANGUAGES

Burmese — Native

English — Fluent

Japanese — Basic conversational
